

The IGE Hub fosters learning and collaboration among grantees and disseminates information and opportunities across the wider STEM community.

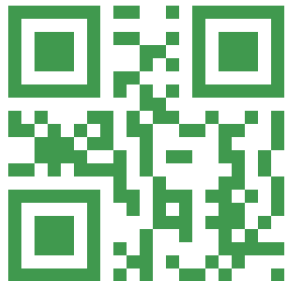

PROJECT AREAS

IGE grants fund a variety of projects in multiple major thematic areas:

- Professional development
- Interdisciplinarity
- Diversity, equity, inclusion, and belonging
- Mentoring and wellbeing
- Emerging areas of research

The IGE Hub site hosts both ongoing and completed projects, including any resources that have come out of completed projects.

THE SITE**

WHAT IS IGE?

The Innovations in Graduate Education (IGE) program is an NSF-funded initiative to support cutting-edge research in STEM graduate education.

WHAT IS THE IGEHUB?

The IGE Hub seeks to support IGE projects by hosting convenings, promoting research, and sharing resources. The Hub website serves as a digital resource that features spotlights on innovative projects, videos featuring research and guidance from IGE grantees, and information on how to apply for an IGE grant.

STAY IN TOUCH

Get the latest in innovations in graduate education delivered straight to your inbox with the IGE Insider, or visit us on the web at www.igehub.org.
